July 14, 2021

Dear Valued Customer,

In response to your concern or inquiry, the following is PTCA's statement on product compliance with the European Union's REACH Regulation (EC/1907/2006) and the related issues of Substances of Very High Concern (SVHCs) and the Substances of Concern in Products (SCIP) database. This statement applies to products from any PTCA manufacturing location as well as from Enduro Industries.

REACH REGISTRATION

PTC Alliance's steel products are classified as articles under the REACH regulations and are not subject to registration. They do not contain any substances intended for release, and therefore do not meet the Article 7.1 criteria that would require registration of their constituent substances.

REACH-SVHC CANDIDATE LIST FOR AUTHORIZATION

This SVHC statement is based on the August 7, 2021 revision of the European Chemical Agency's 219-substance candidate list for authorization. PTCA's steel products do not contain any of the listed substances at other than trace concentrations below the 0.1 weight % declaration limit.

SCIP –SUBSTANCES OF CONCERN IN PRODUCTS

PTCA's products do not contain any SVHC's, therefore there are no substances that require reporting to the EU's SCIP database.

A handwritten signature in black ink that reads "Terry F. Beckwith".
